**Jesus IS our City of Refuge!**

Heb. 6:18

Matthew. 5:21-24

1 Corinthians. 6:10-11

**10 Questions for Astrologers**

(Borrowed from Chuck Missler)

- 1) What is the likelihood that 1/12th of the world's population is having the same kind of day today?
- 2) Why is the moment of birth, not conception, crucial for astrology? Is that why identical twins always have the same personality?!
- 3) If the mother's womb can keep out astrological influences until birth, can we do the same with a slab of steak?
- 4) If astrologers are as good as they claim, why aren't they richer? (e.g.: stock market, etc. How many foresaw Black Monday, October 1987? None.)
- 5) Are all horoscopes done before the discovery of the three outer most planets incorrect? (Uranus, 1781; Neptune, 1846; Pluto, 1930.)
- 6) Shouldn't we condemn astrology as a form of bigotry? (i.e., refusing to hire a Leo or date a Virgo, etc.)
- 7) Why do different schools of astrology disagree so strongly with each other? No convergence of consensus. – Precession of the Earth's axis. – How many planets and celestial objects to be included. – Allocation of personality traits, etc.
- 8) If the astrological influence is carried by any known force, why do the planets dominate? [The obstetrician who delivers the child turns out to have about six times the gravitational pull of Mars and about 2,000 billion times its tidal force (less mass, but a lot closer!).]
- 9) If astrological influence is carried by an unknown force, why is it independent of distance? The importance of Mars in a horoscope is identical whether the planet is on the same side of the sun as the Earth or seven times farther away on the other side, etc.
- 10) If astrological influences don't depend on distance, why is there no astrology of stars, galaxies, and quasars? Doesn't the omission of Rigel, the Crab pulsar, and M31 render a horoscope incomplete?
